

Hanwha Group is a top 10 business enterprise in South Korea and a “Fortune Global 500” company, with revenues for the group ~\$65 Billion USD (2022).

Hanwha Vision offers quality video surveillance solutions designed to meet the current and future needs of security professionals. Our cameras, video recorders and other IP network devices are expertly designed and manufactured in-house.

Exceptional quality – Full 5-year warranty.

Cost-effective – Excellent price-to-performance ratio.

Innovation – Dedicated R&D lab, innovation centre and AI lab for a competitive edge.

Trusted cybersecurity – NDAA compliance, NIS2 & CRA Ready, dedicated response team, and more.

In-house manufacture – Our products are made in a state-of-the-art smart factory in Vietnam.

Flagship Ranges

A series

Affordability without compromise

The A series offers cost-effective cameras and NVR solutions equipped with essential functionality.

Models: 2MP and 4MP; dome, flateye, bullet, NVRs.

Ideal for domestic and counter-top sales.

Q series

Quality at a competitive price

Now with core AI in the latest Q series models, the range makes AI-powered analysis more affordable than ever.

Models: 2MP, 4MP, 5MP, 4K; dome, bullet, flateye, PTZ, 6MP/12MP fisheye, with intelligent AI analytics, NVRs.

Ideal for small and medium-sized sites.

X series

Defining the new standard of excellence

Our main commercial range with accurate AI that can detect people, faces, vehicles and number plates, reducing false alarms and improving efficiencies.

Models: 2MP, 5MP, 6MP and 4K; dome, bullet, flateye, PTZ, 12MP fisheye, with advanced AI analytics, NVRs.

Ideal for commercial projects.

P series

High-performance, premium AI

Ultimate premium cameras designed with the most advanced technology, delivers users an outstanding video surveillance solution.

Models: Multi-sensor, dome, bullet, PTZ, with high resolution and most advanced AI analytics, NVRs.

Ideal for commercial, large-scale projects.

T series

Speciality range for challenging environments

Our specialty camera line-up overcomes some of the toughest challenges for operators, for example thermal temperature measuring and intrusion detection at night.

Models: Thermals, explosion-proof, intercom, anti-ligature.

Ideal for specialty environments.

HD+

The HD+ range supports the transmission of full HD images and audio. HD+ is cost effective as it is easy to implement and there is no need to incur the cost and time of installing encoders, converters or switches.

Options: 2MP and 4MP dome, bullet; hybrid recorders in 4,8,16 Channel with a mix of Analogue and IP.

Solutions: Solving real-life problems with AI

Working closely with end-users, system integrators, consultants and technology partners, Hanwha Vision has been able to analyse customer pain points and develop customised solutions which solve real-life problems.

We understand that there is a need for specific solutions for each vertical market, rather than just general-purpose security products, which is why we have tailor-made offerings for a range of markets.

Our commitment to sustainability

As a responsible company, Hanwha Vision seeks to provide solutions to support environmental, social and governance (ESG) initiatives to lead positive change through our business.

Read our ESG report:

Cybersecurity you can trust

Hanwha Vision is committed to designing, developing and manufacturing products and solutions which are cyber-secure, keep users' information safe, and comply with international data protection regulations.

NIS2/CRA Ready

- Secure Boot Verification
- Secure OS
- Secure JTAG

We have a dedicated in-house team, S-CERT, who are entirely focused on addressing any potential security vulnerabilities for added peace of mind.

Operators can have full overview scenes with our simple and scalable Video Management System, Wave.
